

# CCCampI9-beamer

LATEX beamer for CCCampI9

marei <chaos@texhackse.de>

# Fonts

This bundle requires Marvel and Fira Sans fonts installed.

Fira is part of  $\text{\TeX}$  Live and Mik $\text{\TeX}$ . Marvel can be downloaded from GitHub  
<https://github.com/google/fonts/tree/master/ofl/marvel>

The normal Text Font ist Fira Sans. Code Font is Fira Code, with Ligatures enabled (shown on next slide).

Examples for Marvel: *marvel regular*

*marvel italic*

*marvel bold*

*marvel bold italic*

# The Code Font Supports some Ligatures

Turn them off using package option: `codeligatures=off`

This option can only be set globally.

# Package Options

You can either use the coloring options as package option or locally. To change it inside the Document use

```
\ChangeOptions{rocket=communication}
```

The available options are:

`rocket` choose rocket(s) for progressbar

`frametitle` color the frametitle or switch back to changing

`titleimage` replace the fullpage-image for the title slide

`titlepos` Coordinate of north west corner of the title & subtitle box

# frametitle

In default setting the color are chaging from slide to slide. To choose a specific color set frametitle to one of the values:

chaos, communication, camp, all

# rocket

The rocket option acts similar to the frametitle one.

Beside the values chaos, communication, camp and all, there is also a none-option to turn off all rockets.
